- Mini Form Factor
- Top Mounted Jacks
- Firmware Updateable
- Over 80 Sweetened and Guided Tunings
- 9VDC or USB-C Bus Power

We designed StrobeStomp Mini™ around the most requested features from our customers: a mini form factor, and top mounted jacks.

We felt there could be no concessions in StrobeStomp Mini. Users will find everything they love about StrobeStomp HD in StrobeStomp Mini: pop-less true bypass, pure buffer, always-on Monitor Mode, transposition & adjustable concert A reference. StrobeStomp Mini is everything you need in a pedal tuner, shrunk down to less than half the size of StrobeStomp HD.

Width: 46mm • 1.8"
Length: 94mm • 3.7"
Height: 33.5mm • 1.32" (w/o switch)
